ABOUT ME

Hi, I'm Amit Kumar, a B.Tech CSE student at Vision Institute of Technology, affiliated with Dr. A.P.J. Abdul Kalam Technical University (AKTU), graduating in 2027. I'm focused on Data Analytics and building skills in Python, SQL, Excel, Power BI, NumPy, and Pandas. I have also completed a Data Annotator course at IIT Mandi & iHub HCI Foundation. I'm passionate about learning new technologies, solving problems, and building a career in Data Analytics.

EDUCATION

Bachelor of Technology (Computer Science & Engineering)

Vision Institute of Technology | Affiliated with Dr. A.P.J. Abdul Kalam Technical University (AKTU) | 2023–2027

Pursuing B.Tech in CSE with focus on data analytics, programming, databases and practical projects.

Intermediate (PCM) – CBSE

Kendriya Vidya Niketan, Sihavali | 2022–2023

Completed senior secondary education with Physics, Chemistry and Mathematics, developing analytical and quantitative problem-solving skills.

High School – CBSE

DP Vidya Peeth, Dhanari (Sambhal) | 2020–2021

Completed secondary education with a foundation in mathematics, science, communication and academic problem-solving.

EXPERIENCE

Technical Support Engineer – Computer Net World

- Provided technical support and assistance for computer-related issues and troubleshooting.
- Identified technical problems and helped users with practical solutions.
- Developed troubleshooting, communication and customer-support skills through technical work.

Data Analytics Intern – HexaSoftware

- Gained practical exposure to data analytics workflows and analytical problem-solving.
- Worked with data-related tools and concepts for analysis and reporting tasks.
- Strengthened skills relevant to Python, SQL, Excel, Power BI and data analysis.

TECHNICAL SKILLS

Programming: Python, JavaScript (ES6), SQL

Data: Excel, Power BI, NumPy, Pandas, Matplotlib

Web: HTML5, CSS3, React.js (Basics), REST APIs

Tools: Git, GitHub, VS Code

IoT: Arduino/ESP8266, Embedded C, Sensors

Other: Data Annotation, UI Testing

PROJECTS

Smart Home Automation System | IoT Physical Project

- Developed a system to control home appliances remotely and support real-time monitoring and automation.
- Worked with Arduino/ESP8266, sensors and embedded technologies; submitted the physical project at ATL Lab.

AI Interview System | Web Project

- Developed a web-based mock interview platform using HTML, CSS and JavaScript.
- Designed the platform to simulate real interview scenarios and provide a user-friendly practice experience.

Drop Sensor Wiper System Car | Embedded/IoT Project

- Developed a smart wiper system that detects water droplets and automatically activates the wiper mechanism.
- Used sensors and embedded control logic to demonstrate automatic response to rainfall/water detection.

ACHIEVEMENTS & HACKATHONS

- **District-Level Certificate:** Received a district-level certificate for the Smart Home Automation System project, recognizing its technical and practical implementation.
- **HackGear 1.0:** Participated in a national-level hackathon and earned participation and coordination certificates.
- **HackGear 2.0 – Team Quantum Coders:** Secured **3rd Position** with an Appreciation Certificate.

TRAINING / CERTIFICATION

- **Data Annotator Course – IIT Mandi & iHub HCI Foundation:** Completed training focused on data annotation and related practical workflows.

SOFT SKILLS & LANGUAGES

Soft Skills: Teamwork & Collaboration, Time Management, Leadership & Initiative, Effective Communication, Critical Thinking & Problem Solving

Languages: Hindi – Native Proficiency | English – Intermediate Proficiency
